# Summary

Total police officer strength in the United Kingdom increased year on year between 2003, when there were 155,000 officers, and 2010, when there were just over 171,600. Since 2010 the number of police officers has fallen each year. At 31 March 2017 there were a total of 150,000 police officers operating within the United Kingdom. This was a reduction of 3.3% compared to 2003 and a decrease of 12.4% from 2010.<sup>1</sup>

Chart 1: Total Police Officers (England & Wales, Scotland and Northern Ireland), at 31 March

2003 2004 2005 2006 2007 2008 2009 2010 2011 2012 2013 2014 2015 2016 2017

This briefing paper explores police service strength data from the Home Office, Scottish Government, and Police Service of Northern Ireland (PSNI). The paper analyses England and Wales, Scotland, and Northern Ireland in turn, and includes international comparisons where available.

#### Latest figures

- **England & Wales**: on 31 March 2017, there were 126,186 police officers in England and Wales. This represents a 1% decrease since March 2017
- **Scotland**: on 31 March 2017, there were 17,256 police officers in Scotland. This was approximately the same as the year before, when there were 17,317
- **Northern Ireland**: at the end of March 2017, there were 6,840 police officers in Northern Ireland. This was roughly the same number as in December 2015, when there were 6,827

<sup>&</sup>lt;sup>1</sup> Numbers are based on full time equivalent and exclude Police Community Support Officers (PCSO) or Special Constables (SC). Data for England & Wales and Scotland is at 31 March; data for Northern Ireland is calendar year end for previous years and 31 March for 2017

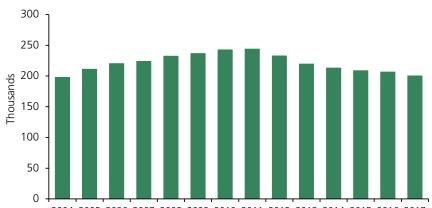

## 1. England & Wales

## 1.1 Police Workforce

Police service strength data is published by the Home Office biannually. Detailed statistics are published in July, showing the situation at 31 March; in January, headline statistics are released showing the situation at 30 September in the previous year.

Chart 2 below shows the trend in total police workforce strength from 2003. The police workforce in England & Wales increased year on year until a peak in 2011. Since then, the size of the police workforce has fallen year on year. At March 2017, there were just under 200,000 personnel, a reduction of 23% compared to 2010 and a 1% reduction compared to March 2016.<sup>2</sup>

2004 2005 2006 2007 2008 2009 2010 2011 2012 2013 2014 2015 2016 2017

Of the full time equivalent (FTE) paid staff in the police service in England & Wales at the end of March 2017, 62% were police officers of various ranks, 31% were support staff, 5% were Police Community and Support Officers (PCSOs), with the remainder designated officers or traffic wardens.

## 1.2 Police Officer Strength

The current headline measure of police officer strength includes longterm absent staff, such as those taking career breaks or parental leave. At 31 March 2017 the total strength of the 43 police forces in England & Wales reached 123,142 FTE officers. This was the lowest number of police officers recorded under the current strength measure.

Chart 3, below, shows the trends in police officer strength between 2003 and 2016.

<sup>&</sup>lt;sup>2</sup> Excludes special constables, secondments to central services, and British Transport Police.

#### Chart 3: Police Officer Strength, FTE, at 31 March Excludes CSS and BTP

Between 31 March 2010 and 2017, police officer strength fell by 20,592 - a 17% fall. Police officer numbers fell by 924 between March 2016 and March 2017.

In March 2017, there were 365 officers in Central Service Secondment (CSS) and 2,679 working for the British Transport Police (BTP), in addition to the officers in the 43 police forces. BTP officer numbers rose by 1% between March 2010 and March 2017.

Table A1, appended, shows strength data for each of the 43 police forces in England & Wales, as well as CSS and BTP numbers.

West Yorkshire police had a 5% increase in officer numbers between March 2016 and March 2017, the largest increase of any of the 39 police forces in England. Humberside police force also saw a notable increase in officer numbers (4%) between March 2016 and March 2017.

The force which saw the highest decrease in officer numbers in the year leading up to March 2017 was Nottinghamshire, which had a 7% drop. Wiltshire and Sussex police forces saw their officer numbers reduced by 4% each.

In Wales, there was a 4% increase in officers in the Gwent police force between March 2016 and March 2017. This followed an 8% reduction in Gwent police officer numbers between March 2015 and March 2016.

Prior to March 2003, long-term absent staff, such as those taking career breaks or parental leave, were not included in the headline measures of police officer strength. The Home Office still collects police strength data based on the old definition, which allows a longer time series analysis.

Excluding absent staff, there were 118,079 FTE police officers in the 43 police forces across England & Wales at 31 March 2017. This was the lowest figure since 1985. Figures for 31 March 2017 represent a drop of 20% compared to 2010. At 31 March 2017 there were approximately 5,130 police officers considered long-term absentees.<sup>3</sup>

<sup>&</sup>lt;sup>3</sup> Figure calculated by subtracting 2016 figure for England & Wales in Table A2 from Table A1 in the appendix.

Chart 4 shows police officer strength from 1980 at 31 March each year.

March (excludes CSS, BTP and long term absentees)

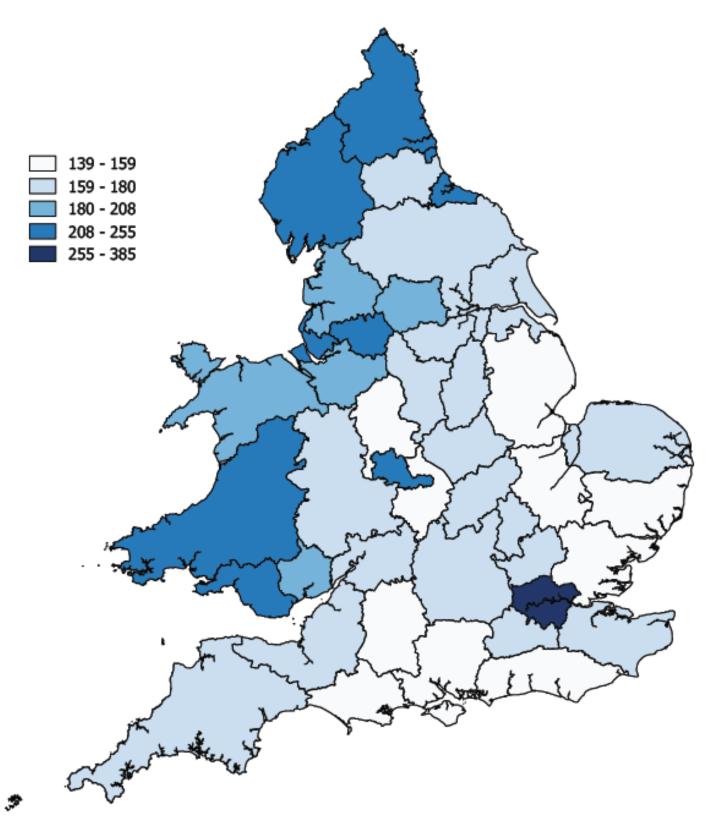

Police officer strength increased steadily through the 1980s, and the first part of the 1990s. By 1993 police officer strength was 126,128 – 15% higher than in 1979. From 1993 police strength fell in 6 of the 7 following years so that strength stood at 121,958 by 2000. Between 2000 and 2006 officer strength increased by a total of 17,678; this equates to an average yearly increase of 2.4%. After reaching a peak in 2009, at 141,647, police officer strength has decreased in each subsequent year.

Table A2, appended, shows police officer strength for all 43 police forces in England & Wales, excluding long term absentees, between 1979 and 2017.The map below shows the number of police officers<sup>4</sup> per 100,000 head of population in March 2017.<sup>5</sup> It is clear from the map that the areas of England & Wales that contain major centres of population have a greater rate of police officers per 100,000 head of population: the Metropolitan, Merseyside and West Midlands police forces had the highest ratio of police officers to civilians.

<sup>&</sup>lt;sup>4</sup> Police officer numbers taken from Table A2. Metropolitan and City of London police numbers and population have been combined.

<sup>&</sup>lt;sup>5</sup> Population figures for police force areas are from: <u>ONS, Crime in England & Wales:</u> <u>Police Force Area Data Tables</u>, accessed 20 July 2017.

# Table 1: Police officers per 100,000 head of population by police force areaAt 31 March 2017

Police officer numbers for 2016 taken from Table A2

Metropolitan and City of London police combined

Population figures taken from Crime in England & Wales: Police Force Area Data Tables. Population data is mid-year 2015.

Sources:

Home Office, Police Workforce: England and Wales, (various editions).

ONS, Crime in England & Wales: Police Force Area Data Tables, accessed 20 July 2017

Note:

## 1.3 Police Officer Diversity

Of the 123,142 police officers in England & Wales at 31 March 2017, 35,844 were female. This is lower than the number in 2010, as would be expected considering the reduction in police officer strength, although still higher than any year between 2003 (25,139) and 2008 (34,332).

Table 2, below, shows a breakdown of police officer strength in England & Wales by gender and ethnicity.

	Total	Fem	ale	Ethnic I	Minority
	Strength	Number	% of total	Number	% of total
2003	132,509	25,139	19%	3,868	3%
2004	138,468	27,925	20%	4,594	3%
2005	141,059	29,940	21%	4,971	4%
2006	141,523	31,520	22%	5,236	4%
2007	141,892	33,117	23%	5,519	4%
2008	141,859	34,332	24%	5,793	4%
2009	143,770	36,121	25%	6,290	4%
2010	143,734	36,988	26%	6,642	5%
2011	139,110	36,532	26%	6,615	5%
2012	134,100	35,962	27%	6,664	5%
2013	129,584	35,401	27%	6,537	5%
2014	127,909	35,653	28%	6,715	5%
2015	126,818	35,738	28%	6,979	6%
2016	124,066	35,498	29%	7,218	6%
2017	123,142	35,844	29%	7,572	6%

Table 2: Police Officers in England & Wales, FTE at 31 March

Notes:

Includes staff on career breaks or maternity/paternity leave.

Excludes CSS and BTP.

Home Office, Police Workforce: England and Wales, (various editions).

At 31 March 2017, 7,572 (6%) police officers identified as being from an ethnic minority – an increase of 2 percentage points compared to 2005. However, this is still considerably lower than the proportion of the general population that is from an ethnic minority (14%).<sup>6</sup> Of those identifying as being from an ethnic minority, 29% were of mixed ethnicity, 19% from black or black British backgrounds, 41% were from Asian or Asian British backgrounds, and 11% were from "other" ethnicities.

At 31 March 2017, 31% of police officers in England & Wales with the rank of Constable were female. The proportion of females holding more senior ranks was much lower. Only 27% of those officers ranked Chief Inspector or higher were female, although this has increased from 15% in 2010 and from 23% in 2016. 262 out of every 10,000 males in the

Source:

<sup>&</sup>lt;sup>6</sup> <u>2011 Census – ethnic group by sex and age, available from Nomis.</u>

police were senior officers; 207 out of every 10,000 female police officers held senior ranks.

Officers from ethnic minority backgrounds were also under-represented at senior ranks, accounting for 3.3% of officers at the rank of Chief Inspector or above. This proportion changed slightly (-0.1 percentage point) from the situation in 2016.

The police force with the largest proportion of minority ethnic officers is the Metropolitan Police (13.4%). The force with the next highest proportion is West Midlands (9.3%), followed by Bedfordshire (8.8%), Leicestershire (7.8%) and Greater Manchester (6%). 18 police forces in England & Wales did not have any officers from a BME background ranked Chief Inspector or higher.

## 1.4 Joiners and Leavers

In the year to 31 March 2017, the 43 police forces of England & Wales recruited 7,526 FTE police officers (up from 4,735 the year before, a 59% increase), while 8,569 (up from 7,701) left the service. Women accounted for 33% of joiners and 25% of leavers. Table 3, below, shows recruitment and leaving numbers.

#### Table 3: Police Officer recruitment and leavers

12 months to 31 March

	R	ecruitment			Leavers	
	Total	Of which fe		Total	Of which fe	
		Number	%		Number	%
1998	6,543	1,753	27%	6,657	766	12%
1999	5,391	1,392	26%	6,104	889	15%
2000	4,535	1,258	28%	5,948	800	13%
2001	7,415	1,966	27%	5,849	860	15%
2002	10,215	2,740	27%	6,420	918	14%
2003	13,126	3,209	24%	7,783	1,029	13%
2004	13,137	3,967	30%	7,139	1,039	15%
2005	9,908	3,190	32%	7,367	1,039	14%
2006	8,400	2,736	33%	8,773	1,239	14%
2007	8,671	3,014	35%	8,121	1,224	15%
2008	7,981	2,596	33%	7,870	1,277	16%
2009	9,873	3,241	33%	7,729	1,286	17%
2010	6,912	2,110	31%	6,824	1,069	16%
2011	2,197	693	32%	6,664	968	15%
2012	2,394	677	28%	6,965	1,018	15%
2013	2,358	785	33%	6,848	1,223	18%
2014	5,589	1,812	32%	6,904	1,359	20%
2015	6,866	2,125	31%	7,382	1,621	22%
2016	4,735	1,475	31%	7,701	1,757	23%
2017	7,526	2,519	33%	8,569	2,126	25%

Note: 1998-2002 headcount figures, 2003 onwards FTE

Source: Home Office, Police Workforce: England and Wales, (various editions).

The police force with the highest recruitment in proportion to their total strength was Gwent (13.2%), followed by West Yorkshire (11.8%) and Humberside (11.5%). The wastage rate (leavers as a proportion of

strength) was 6.9% across England & Wales. Wiltshire police force had the largest wastage (9.8%) and Dyfed-Powys had the lowest (3.6%).

## 1.5 Other Police Service Staff

On 31 March 2017, there were 75,542 FTE staff in all supporting roles, a 0.2% increase on the previous year. Staff in supporting roles comprise civilian staff, PCSOs, designated officers, and traffic wardens.

## Police Civilian Support Staff

On 31 March 2017 there were 61,063 FTE civilian staff in supporting roles in the 43 police forces of England & Wales, a decrease of 1.0% on the previous year and an 18.8% decrease compared to 2007.<sup>7</sup>

There were 4,255 designated officers, a 3.0% increase on the year before. There were 11 traffic wardens, down four from 2016. The small number of traffic wardens reflects the increasing role of local authorities in parking control and the abolishment of the role.

## Police Community Support Officers (PCSO)

PCSOs are civilians employed by a police authority in a 'highly visible, patrolling role'. The first PCSOs started work on the streets of London in September 2002. PCSOs are currently funded partly through Government grant to police authorities and partly through match funding from other organisations. Further information relating to PCSOs can be found in the Library note <u>Police Community Support Officers</u>.

Table A3, appended, shows the number of PCSOs in each of the 43 police force areas, at the end of March, since the role was introduced.

At the end of March 2017 there were 10,213 FTE PCSOs, a 7.5% decrease on the year before. PCSO numbers have fallen year on year since the peak of 2010. 14.1% of the PCSOs are based in the Metropolitan police force area alone.

Of the PCSOs employed at the end of March 2017, 45% were female and 9% were from a minority ethnic group.

## Special Constabulary

Special Constables are a force of volunteers who receive training from their local police force to work with and offer support to regular police officers. Further information relating to special constables can be found in Library Briefing Paper 1154 <u>Special Constables</u>.

Chart 5, below, shows the trend in special constabulary strength from 1995 to 2017. As can be seen, between 1997 and 2004 special constabulary strength decreased year on year at an average rate of 2.1%. From 2004 special constabulary strength increased at an average rate of 9.4% until reaching the 2012 strength figure of 20,352. Between 2012 and 2015 special constabulary strength decreased at a rate of 5.2% per year. The number of Special Constables increased again in 2016, but then decreased further in 2017.

<sup>&</sup>lt;sup>7</sup> Excluding PCSOs, designated officers, and traffic wardens.

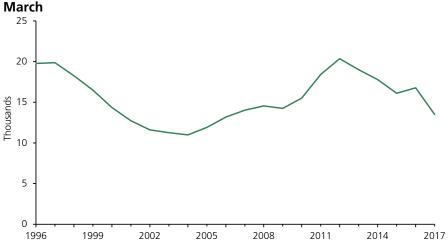

Chart 5: Special Constables, England & Wales, at 31

In the 12 months to 31 March 2016, 3,169 special constables joined the special constabulary, while 5,105 left. A number of Special Constables often leave their post to become police constables, in the year to March 2017, 11.5% of police officer joiners were previously special constables.

Table A4 (appended) shows the trend in special constabulary strength in each police force area in England & Wales between 1995 and 2017.

## 1.6 Measuring the Frontline

For a long time there was no agreed definition of what constitutes the policing frontline. In December 2010 Her Majesty's Inspectorate of Constabulary (HMIC) was asked by the Home Office to define what constitutes the frontline by using police function categories. From 2012 the Home Office published the number of police officers on the frontline, using the definition developed by HMIC.

From 31 March 2016 the police functions definitions used by the Home Office and HMIC to calculate the number of frontline policing roles changed – all police function definitions used to calculate the frontline from 31 March 2016 are based on the Police Objective Analysis (POA) categories.

The change in framework means that frontline measures between 2016 and previous years, calculated under the old framework, are not directly comparable.

Appendix 2 contains further detail on the methodology of measuring the frontline. Table A5, in Appendix 1, shows the number of police officers in frontline roles in accordance with the new framework.<sup>8</sup> Table A7, in Appendix 2, shows the distribution of police service staff in frontline/non-frontline roles under the old framework.

<sup>&</sup>lt;sup>8</sup> In March 2015 the Home Office collected frontline data in accordance with the new framework as well as the old. As such the table shows the number of frontline police under the new framework for 2016 and 2015 as well as estimates for other years.

Chart 6, below, shows the number of police officers in frontline roles for 2017 along with Home Office estimates for previous years calculated under the new framework.

# Chart 6: Police officers in front line roles, at 31st March

Figures for 2010-14 are Home Office estimates using the new framework

At 31 March 2017 there were 105,571 police officers in frontline roles - this was the lowest level since March 2010 under the new framework. The number of police officers in frontline roles fell by 14.4% between 2010 and 2017, and by 0.8% between 2016 and 2017.

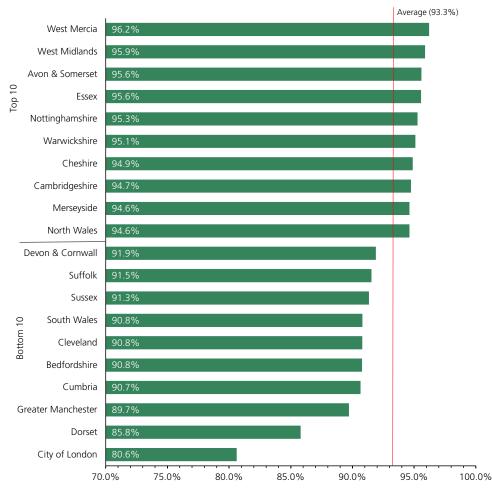

Chart 7, above, shows police forces ranked by the proportion of their police officers in frontline roles according to the new framework at 31 March 2017. West Mercia police force had the highest proportion of its police officers in frontline roles (96.2%), closely followed by West Midlands (95.9%) and Avon & Somerset (95.6%).

# 2. Scotland

## 2.1 Police Officer Strength

Data on the total strength of Scottish police is published quarterly by the Scottish Government.<sup>9</sup> From 1 April 2013 the 8 police forces of Scotland ceased to exist and were amalgamated under one command as per the *Police and Fire Reform (Scotland) Act 2012*. As a result, it is no longer possible to produce time series strength statistics for each area of Scotland. Only total police figures are published.

Chart 8, below, shows total police officer strength for Scotland from 1985 to 2017.

Chart 8: Police Officer Strength, Scotland, at 31 March

Over the last 30 years, Scottish police strength has seen an almost continuous increase year on year. At 31 March 2017 police strength was 31% greater than in 1985.

Over the last few years there has been an occasional decrease in numbers, for example between 2010/11 and 2013/14, although these were always followed by increases the next year. At 31 March 2017 strength stood at 17,256 police officers which was 1% lower than the 2013 high of 17,496 officers.

## 2.2 Police Officer Diversity

The most recent information on police diversity in Scotland comes from the <u>Police Scotland Equality and Diversity Mainstreaming Progress Report</u> <u>April 2017</u> although this uses information for the end of March 2016.

According to the report 30% of police officers in Scotland were female, an increase of two percentage point on 2013. There was a three percentage point drop in the number of female Special Constables (34%) since February 2013 and the proportion of female Police Staff in Scotland increased by one percentage point (to 63%) since March 2014.

Only 1% of police officers considered themselves to be from an ethnic minority. This figure has remained static since 2010. Of those considering

<sup>&</sup>lt;sup>9</sup> Police Strength Statistics for Scotland, Scottish Government.

themselves to be from an ethnic minority, Pakistani was the most common ethnic origin. Of the overall Scottish population, 4% identified as being from an ethnic minority.

As of 31 March 2016, 23% of those officers that were in a promoted post (at sergeant or above) were female, an increase of 3 percentage points on 2014. For more senior ranks, superintendent or above, 20% were female, a 4 percentage point increase on 2014.

Only 1% of officers in a promoted rank were from a BME minority background at 31 March 2016.

# 3. Northern Ireland

## 3.1 Police Officer Strength

Chart 9, below, shows the trend in full time regular police officer strength in Northern Ireland from 1969 through to 2017, based on figures provided by the PSNI.

Since 2000, there has been an overall decrease in the number of full time regular police officers, although numbers increased slightly in 2017. As of March 2017, full time regular police officer strength in Northern Ireland stood at 6,840 – a 6.4% decrease on 2010.<sup>10</sup>

Chart 9: Police Officer Strength, Northern Ireland 1969-2017

## 3.2 Police Officer Diversity

In January 2016 there were 1,910 female full time regular police officers in Northern Ireland – this represents a 2% increase on the previous year. Since 2009 the number of female police officers has increased by 10%.

#### Chart 10: Number of Female Police Officers, Northern Ireland, 2009-2017

Whereas the number of female police officers increased and then fell for a couple of years between 2012 and 2014, male police officer numbers have decreased year on year since 2009 with the exception of an increase

<sup>10</sup> Data for 2017 is for 31 March, data for earlier years is at 31 December

of 4 in 2015. At March 2017, the number of male police officers stood at 4,889, which represented a 14% decrease from 2009.

Chart 11: Number of Male Police Officers, Northern

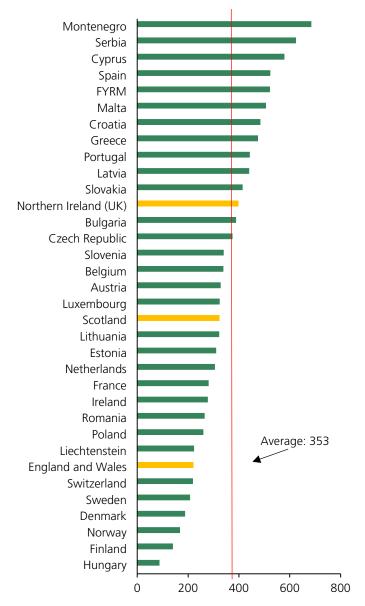

Throughout the period the proportion of full time regular police officers identifying as coming from an ethnic minority has consistently been below 1%. Despite this the proportion of ethnic minority officers has been increasing year on year since 2009 and currently stands at 0.5%. According to the 2011 Census 0.8% of the general Northern Ireland population comes from an ethnic minority background.

In March 2017, 67% of police officers considered themselves to be Protestant, 31% Roman Catholic, and 1% did not consider themselves either.

# 4. International Comparisons

Police forces are organised in different ways in different countries. Some countries have more than one 'police force', for example state police, communal or municipal police, judicial police or gendarmerie, all of which perform some policing duties. These differences should be borne in mind when making comparisons between countries, as there is no information available on the percentage of policing duties carried out by these other bodies.

# Chart 12: Police Officers per 100,000 population, 2014

Out of 34 nations where data was available for 2014, England & Wales was ranked 28<sup>th</sup> for the number of police officers per 100,000 head of population. Northern Ireland was ranked 11<sup>th</sup> and Scotland 19<sup>th</sup>.

Table A6, appended, shows the number of police per 100,000 head of population in selected European countries between 2008 and 2014.

Note:

Figures for March 2015 and 2016 have been calculated using Her Majesty's Inspectorate of Constabulary's (HMIC's) frontline policing model which can be found in Annex 4 of their Value for Money Profiles

Figures for March 2010 to March 2014 have been estimated based on data for a parallel running year (March 2015) and are rounded to the nearest whole number or 0.1 per cent.

# 6. Appendix 2: Methodology, Frontline Policing

In March 2011, following an analysis of the approximately 60 police functions/roles and a consultation with police sector representatives and the public, HMIC published a working definition of the policing frontline in <u>Police Visibility: Demanding Times</u>:

The police front line comprises those who are in everyday contact with the public and who directly intervene to keep people safe and enforce the law.

However, in July 2013, HMIC revised the model used for the division of the police into frontline and non-frontline roles but it is based on the overall definition first used in 2011.

HMIC grouped the different roles that comprise policing into three categories, which they defined as follows:

- Operational front line functions include things like patrolling neighbourhoods, responding to 999 calls, roads policing and protecting vulnerable people.
- Operational support functions include things like intelligence to support investigations or direct patrol and scientific support to process forensic evidence.
- Business support functions include things like facilities management, training, and finance departments, without which forces could not operate, but which are not operational policing functions.

Using the agreed definition of frontline staffing from HMIC, the Home Officer estimated the number of staff on the frontline based on the strength figures from the Annual Data Return (ADR) of police forces.

From 31 March 2016 the police functions framework (which was used to calculate the number of staff in frontline/non-frontline roles) was replaced with a new framework based on the Police Objective Analysis (POA) categories. The new categories are not directly comparable with the previous framework.

The intention behind changing the police functions definitions was to ensure that functions remained relevant and reflected current policing structures.

To calculate the frontline with the new police function definitions, the Home Office used a new definition of the frontline by HMIC (this can be found in Annex 4 of HMIC's <u>Value for Money Profiles</u>).

Table A5 (p. 29)

The House of Commons Library research service provides MPs and their staff with the impartial briefing and evidence base they need to do their work in scrutinising Government, proposing legislation, and supporting constituents.

As well as providing MPs with a confidential service we publish open briefing papers, which are available on the Parliament website.

Every effort is made to ensure that the information contained in these publically available research briefings is correct at the time of publication. Readers should be aware however that briefings are not necessarily updated or otherwise amended to reflect subsequent changes.

If you have any comments on our briefings please email <u>papers@parliament.uk</u>. Authors are available to discuss the content of this briefing only with Members and their staff.

If you have any general questions about the work of the House of Commons you can email <u>hcinfo@parliament.uk</u>.

Disclaimer - This information is provided to Members of Parliament in support of their parliamentary duties. It is a general briefing only and should not be relied on as a substitute for specific advice. The House of Commons or the author(s) shall not be liable for any errors or omissions, or for any loss or damage of any kind arising from its use, and may remove, vary or amend any information at any time without prior notice.

The House of Commons accepts no responsibility for any references or links to, or the content of, information maintained by third parties. This information is provided subject to the <u>conditions of the Open Parliament Licence</u>.

## **BRIEFING PAPER**

Number 00634, 18 October 2017
